Thuraya XT-DUAL ½ GSM - ½ Satellite

Thuraya XT-DUAL

One SIM, one number and one phone to travel the world.

The Thuraya XT-DUAL is a combination of a GSM and satellite phone that comes with splash water and dust protection and is shock proof.

The dual mode capability is designed for those who travel the world and need a network connection wherever they go.

It conveniently uses either a GSM or a Thuraya satellite network and cleverly shifts between them upon availability.

GSM and satellite capabilities in one phone

The Thuraya XT-DUAL operates efficiently when you are within the reach of any GSM network and when out of terrestrial network it connects to the Thuraya satellite network.

A smart device, The Thuraya XT-DUAL is designed and tested to meet the needs of users who travel frequently and demand a professional phone everywhere they go.

Splash water, dust and shock proof. Certified for toughness

Thuraya XT-DUAL holds an IP64/IK03 ingress protection rating, which means the phone is splash water, dust and shock proof. The latest durable polycarbonates are used for the outside case and aluminum to shield the inside components. Rubber seals on all plugs protect from water and dust.

Fastest internet on-the-go

Build to exceed expectations and raise the standards, the Thuraya XT-DUAL has a built-in browser and offers the fastest data speeds on any satellite enabled phone.

In addition, the Thuraya XT-DUAL can be connected to a PC or Laptop which can then be used to browse the web and send/receive e-mails.

Supported by the most robust and powerful satellite network

Thuraya's satellite network is renowned for being the most powerful satellite network that covers 2/3 of the globe.

Thuraya's powerful network features high gain spot beams, which means reliable connectivity and speed of signal acquisition even in areas of high demand. Thuraya network can immediately allocate additional power over such areas whenever extra demands come up. Thuraya network will not let you down. You will always be in touch. Constantly.

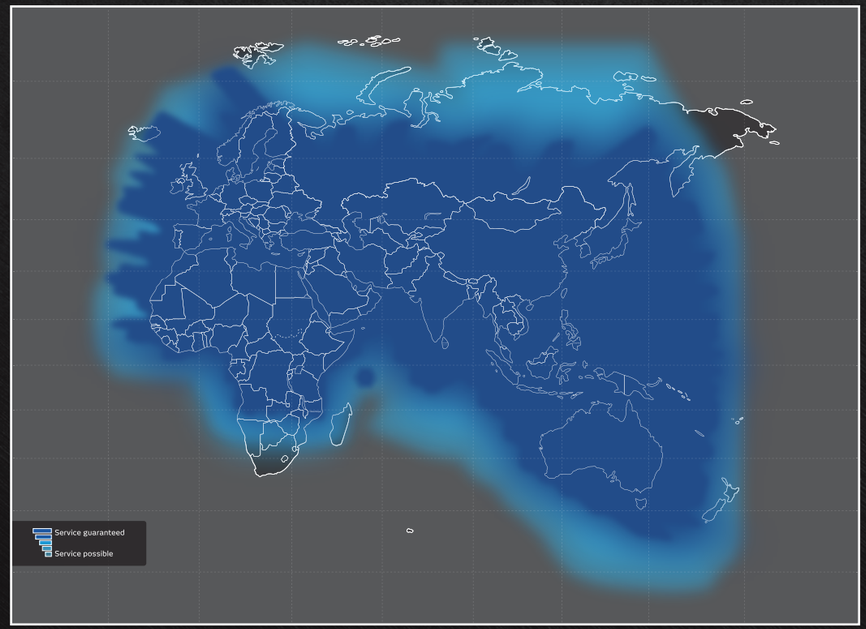
Coverage area

Thuraya's satellite coverage area spreads throughout 140 countries located in Europe, Middle-East, Africa, Asia, and Australia.

And in addition to the wide Thuraya satellite coverage, the Thuraya XT-DUAL can be used in GSM networks (900/1800/1900 MHz) around the world.

Highest flexibility wherever you may go!

Coverage area



This map represents Thuraya expectations of coverage. For further information, please contact Thuraya Customer Care at customercare@thuraya.com or visit www.thuraya.com
